Special Learning's Level 2 ABA Online Training Course

Welcome to Special Learning, the leading global provider of Applied Behavior Analysis (ABA) training solutions and an active BACB ACE Provider (OP-14-2437). The Behavior Analyst Certification Board (BACB) is the international organization that governs the field of applied behavior analytics.

Special Learning's ABA Online Training Course is a comprehensive online training program that is delivered in recorded webcast formats, with free access to downloadable learning materials. Not good with computers? Don't worry. From a computer standpoint, everything is absolutely simple. Our format makes our training available to anyone in the world with a strong Internet connection. In case you run into problems, our Customer Support team will be available to help.

In addition to the training webcasts, all related learning materials are included in the cost of the course. Let's jump straight to the substance of the Special Learning's ABA Online Training Course.

- Why Online Format?
- Entry Requirements
- The ABA Curriculum & Structure
- Tests & Certification
- Course Objectives
- Course Modules (Level2)
- Required and Suggested Materials
- Course Structure
- Contact & Support

A. WHY ONLINE FORMAT? Convenience & Flexibility

○ With the online format, you can access the training from the comfort, convenience and the privacy of your home or office.

○ Participants also have absolute freedom and flexibility with scheduling. You are fully in charge of your study time.

Cost-effectiveness

○ The online format eliminates the need for travel, venue rental, event planning expenses, and other overhead costs.

○ Why would you hustle your way to class or rent a venue when you can simply sit in front of your home or office computer and enjoy the training sessions?

B. ENTRY REQUIREMENTS

© Special Learning, Inc. All Rights Reserved.

445 E. Illinois St, Suite 6702,
Chicago, IL 60611
916-264-9651

- The prerequisite course for taking the Level 2 of SL ABA Online Training program is that you have successfully completed Level 1 of our ABA Online Training Program.

- Special Learning offers flexible and customized training programs designed for varying levels of knowledge and experience. At every level, taking notes, asking questions virtually and putting the methods into practice are major components of the training.

- Our goal is to educate, inform, and empower individuals who work with people with special needs. Our cutting edge technology platforms allow us to effectively deliver the training products and services to communities around the world.

C. TESTS & CERTIFICATION

- Tests are administered in the form of multiple choices. Students must demonstrate mastery by passing a post-test with a score of 80% or higher before they can move onto the next module. Every test is graded automatically through the Special Learning's training system. You receive results shortly upon submission.

- Upon completion of all sessions, you will need to take a final exam. Upon completion of the final exam with a score of 80%, you will receive a digital Proof of Completion that you can print out as needed.

- The content of the course was developed under the guidance of Board Certified Behavior Analysts (BCBAs) and other professionals with clinical ABA experience so you can be guaranteed that you are learning from highly trained and experienced experts with extensive practical knowledge and experience.

- The training is designed to support successful ABA programming in the home, center, school or community environments. During the course, you will be able to implement what you learn immediately to see how the training is making you a stronger ABA practitioner.

D. COURSE OBJECTIVES

- To learn about ABA beyond the basic material.
  To understand methods of teaching supported by research in Applied Behavior Analysis.
- To be able to use methods to increase Active Student Responding in one-on-one, small group, and large group settings.
- To be able to identify common teaching methodologies, their strengths, and weaknesses, and be able to choose the appropriate methodology to use.
- To be able to assess and address behavioral issues.
- To understand the role and importance of identifying functions of behaviors in addressing behavioral issues.

- To understand how to teach learning to increase their social skills.

E. LEVEL 2 COURSE MODULES Level 2: Intermediate ABA Program

1. Ensuring Treatment Integrity
2. Peer-mediated Interventions: More Than Just Play Skills
3. The Use of Preference Assessments in Applied Settings
4. Social Skills in Elementary School - Part 2
5. Video Modelling and Video Prompting as a Treatment Intervention
6. Toddler to Preschool Social Skills
7. Strategies to Increase Beginner Classroom Participation Skills: Decreasing Problem Behavior with a FBA: Part 2 - The Intervention and Behavior Support Plan
8. Severe Problem Behavior

F. REQUIRED AND SUGGESTED MATERIALS

- Special Learning provides all the materials necessary to successfully complete the Level 2 ABA training course. These include a handout that participants can use to take detailed notes for each session.

- Throughout the program, additional free resources will be available to enhance your learning.

G. COURSE STRUCTURE Pre-Tests:

- Prior to each session, students are required to complete a 10 question multiple choice pre-test. Although this test is graded, it's not mandatory that you pass it before you are granted access to the webcast.

- The pre-test is only used as a baseline for determining what level of pre-requisite knowledge the participant has prior to taking the course.

- We strongly advise that you answer the questions without referring to any reference materials.

Post-Tests:

- Upon completion of each session, students are required to complete a 20-question multiple choice test that is graded. You see your results as soon as you submit.

- The post-test is graded based on the standard ABA mastery criteria of 80% and above. Students will NOT be able to move to the next session until they have passed the posttest.

- If a student does not pass the post-test, he or she can review the information and retake the exam as many times as is required to achieve mastery. For the tests to have the greatest effect, we strongly encourage students to treat it like in-class quizzes.
- The post-tests are meant to give you a good idea of how well you are learning the material and are also aimed to reinforce learning.

Course Duration & Pacing:

- Each student is given 10 weeks to complete the course, starting the day the course is activated.
- Even though we recommend setting aside one week for each session, the students can take the course at their own pace as long as they complete the entire program within the 10-week period.
- If the student does not complete the course within the stipulated 10-week period, he or she may request for an extension for an additional fee.

Comprehensive Final Exam:

- At the end of the training program, students are required to complete a comprehensive final exam to demonstrate their retention of the information contained in the entire course.
- The students have one week to complete and submit their answers.
- The final assessment test covers all topics addressed in each learning module.
- The test is graded based on the standard 80-100% mastery criteria and results are automatically

  sent to students after submission of answers.

- To attain the pass grade, students are strongly encouraged to treat this like an in-class exam.
- In the event of failure to pass the final mastery test, the student is allowed to retake the test

  multiple times until he or she demonstrates mastery.

- Successful completion of the course is a mandatory requirement for students to obtain their proof

  of completion.
